

Spanish for You!
Simple. Effective. Affordable

Grab the Vocab:

Number of Players: 2 or more, plus 1 person to call out the vocabulary

Materials Needed: One set of vocabulary pictures per pair of players.

If you are using the Spanish for You! Flashcard pictures, just print out 1 set of pictures per 2 people. You can even print them on card stock to be able to reuse them to play again.

Instructions:

- Students are placed in pairs (or 3's if needed, better in pairs).
- Each pair of players lays out all the vocabulary pictures in front of them.
- The vocabulary caller calls out a vocabulary word in Spanish.
- The players in their pairs grab the vocabulary picture as fast as they can. The one in the pair who grabs the correct picture first gets to keep it.
- The game keeps going until one card is left. That card will not be used.
- The player in each pair with the most pictures wins.

Game Variation:

- You can also use vocabulary words instead of pictures. The caller either says the words aloud in English while pairs grab the words in Spanish OR vice versa.
- OR, if the cards are written in Spanish, the caller just shows pictures while the pairs grab the words.
- You can also do this with verbs.
