

Spanish for You!
Simple. Effective. Affordable

Roll the Dice and Fill Your Category

Players: 2 or more

Materials: each player's own flashcards, 1 die

Instructions:

- Choose some categories players have to fill. For example, if you are practicing verbs, then you could choose categories for verbs in the "I" form, "you" form, "we" form, etc. If you are practicing vocabulary, then create some categories like "the house", "the restaurant", "the body", etc.
- Assign each category a number on the die. If you have less than 6 categories, then assign some categories more than one number, or have a number on the die that means lose a turn or fill any category.
- Figure out a number of cards players must fill for each category. For example, for "I" verb forms you have to fill in with four flashcards, for "we" verb forms you have to fill in with five flashcards, etc.
- Players lay out all their flashcards mixed on a table together.
- Players take turns rolling the die and placing flashcards in categories.
- As they place a card in its category, they should say it aloud in Spanish.
- If a player rolls the die and already has that category filled in, then player loses her turn.
- First player to fill all categories first wins.
