

Spanish for You!
Simple. Effective. Affordable

Class Use Helpful Information

- **You can use the SAME theme with all classes to streamline your planning!**
- Themes are available for grades 3-4, 5-6, and 7-8 so students learn the material with lessons appropriate for their age/grade. They do not indicate a level of Spanish learning experience.
- **There is flexibility grouping students.** For example:
 - You can use a grades 5-6 package with a class of 4th-6th graders.
 - You can use a grades 7-8 package with a class of 6th-8th graders.
- **You can place experienced and inexperienced students together at the beginning of a themed package.** Students who have had Spanish for You! before will continue to progress while new students are seamlessly integrated.
- After you teach a theme one year, choose another to teach the next year. They can be done in any order!
