

How Often Survey

This is a great way to practice verbs and vocabulary, and provide reading, writing, and interactive speaking practice.

Instructions:

- In the left-hand column write sentences using verbs and vocabulary the students have been learning.
- At the tops of the columns write in the frequency (how often) words/phrases.
- The teacher can provide sentences for the left-hand column or create sentences together with the students.
- The teacher should write the survey on the board while students do the same on scrap paper (or you can provide students with blank survey copies provided below).
- After you have created the survey, have the students go around the room and find another student to survey. Or you can have them survey several students.
- To survey, they should say each sentence to the other student, and the other student should reply in Spanish using the frequency word/phrase.
- The student can mark the other student's answers with an "x" or check mark, or with the student's initial if they are surveying several students.
- After the students have surveyed someone else, have them be seated and do the survey together as a class.
- The teacher should say each sentence aloud and then each of the frequency words/phrases.
- The students should raise their hands for the one that applies to them.
- The teacher then writes how many students there are for each column.
- See below for a blank survey sheet AND to see a sample survey.

Sample Survey - This sample uses the verbs *mirar*, *usar*, *abrir*, *hacer*, and *subir* and vocabulary from the Spanish for You! Viajes book. You can use any verbs and vocabulary you are working on with your students.
