

How Non-Spanish Speakers Can Teach Spanish for You!

Even if you don't know Spanish, you CAN teach Spanish classes for kids grades 3-8 using Spanish for You! It is EASY!

Here's how:

- When you teach using Spanish for You!, you use our one-hour lesson plans each week and assign the corresponding week in the Lesson Guide as homework for your students.
- The one-hour lesson plans are step by step so there's never a question about what you need to do.
- As the non-Spanish speaking teacher, all you have to do is read and review the students' homework FIRST, and then you will be ready to teach your class.
- **EXAMPLE:** You are going to teach week 1 of our one-hour lesson plans and then assign week 1 in the Lesson Guide as homework. So, you should:
 - read and review the material in week 1 of the Lesson Guide yourself, which should take you less than an hour.
 - then read week 1 of the one-hour teacher lesson plan to see what you will be doing in your class and prepare the materials.
- That's it!

NOTE: As you move through the curriculum, you will find that reading and reviewing the Lesson Guide will go more quickly because the foundations you have been building along the way will help you.

Questions? Please contact me, Debbie Annett, at support@spanish-for-you.net. Phone consultations can be scheduled too. I would be glad to help you!
